

## Improving care with urology specialists & an informed patient

Texas Urology, located in Lewisville, Texas specializes in urologic care and education of patients. Dr. Ken Goldberg, Dr. John Fairbanks, Dr. David Casey and Orvial Bennett, P.A.-C. offer the latest diagnostics and treatment options for urologic disorders including, impotence (erectile dysfunction), kidney problems, prostate problems (including benign enlargement of the prostate and prostate cancer) and urinary incontinence. The board-certified urologists, Dr. Goldberg and Dr. Fairbanks, also perform no scalpel approach vasectomies. The

off from work, improves efficiency and increases patient satisfaction.

### Convenient Appointments

Because the specialists at Texas Urology are sensitive to the needs of our patients in the Dallas Fort Worth area, we offer early morning appointments for patient convenience. In many cases, patients are able to have tests completed early in the morning and still have test results the same day.

Dr. Goldberg and Dr. Fairbanks perform surgery on weekends, once

urology specialists at Texas Urology help serve the needs of patients in cities across Dallas, Denton and Tarrant County in North Texas.

### Seamless Patient Encounter

We strive to make the patient's encounter at Texas Urology to be as seamless and convenient as possible. Our professional staff offers fast turn around of biopsy results, usually two to three days; and CT Scan results are often available within an hour.

Tests at a hospital can take over an hour to register and then many patients may experience additional delay with test completion. Furthermore, diagnostic tests completed at a hospital or imaging center usually require an additional visit on a later date for results. At Texas Urology, many patients can have their CT Scan and other diagnostic procedures completed with results the same day, usually within an hour and a half. This reduces time

again minimizing time away from work for our patients. No scalpel vasectomies can be performed on Friday so that the patient can minimize productivity lost at work and recover during the weekend. Texas Urology, locations in Lewisville, Carrollton and Flower Mound, is a bilingual office, four of our medical staff and two of our front desk staff speak fluent Spanish.

## Our Physicians

### Ken Goldberg, M.D., Board-Certified Urologist

Kenneth A. Goldberg, M.D., is former Medical Director of the Male Health Institute, Baylor Health Center at Irving-Coppell, Irving, Texas, and currently practices with Texas Urology, Lewisville/Carrollton, Texas. Board certified in urology, Dr. Goldberg received his medical degree from Case Western Reserve Medical School in Cleveland and completed an internship-surgical residency at Emory University School of Medicine in Atlanta and a Urology residency at George Washington University in Washington, DC.

He founded the Male Response (Impotence) Center and the Center for Permanent Birth Control in 1987. Most recently he has become national spokesperson for Male Health for Post Shredded Wheat and for the National Community Pharmacy Association (NCPA). Dr. Goldberg's chat room on Male Health for WebMD was one of the most active community centers on the site.

### John Fairbanks, M.D., Board-Certified Urologist

Dr. John Fairbanks joined Texas Urology, locations in Lewisville and Carrollton, in 1996. He is Board-certified in Urology. Dr. Fairbanks completed his residency in General Surgery, in the Department of Surgery, at the University of Cincinnati in Cincinnati. Dr. Fairbanks completed his residency in Urology and also served as Chief Resident in the Department of Urology at the University of Cincinnati. He completed his Doctor of Medicine at the Chicago Medical School. He is a current member of Society of Government Service Urologists, the American Urologic Association, the Texas Medical Association and the Denton County Medical Society. Dr. Fairbanks has been published in the Journal of Urology and Pediatric Urology. Before joining Texas Urology, Dr. Fairbanks was a Urology Staff Physician at Scott Air Force Base in Illinois and also served as a Surgical House Physician at Christ Hospital in Cincinnati, Ohio.

### David L. Casey, M.D., Board-Certified Urologist

David L. Casey joined the Texas Urology team after nearly 16 years in private practice in nearby Denton, Texas. Dr. Casey is a native Texan, having grown up in West Texas and completed his undergraduate study at the University of North Texas in Denton in 1987 graduating Magna Cum Laude. He earned his medical degree at Baylor College of Medicine in Houston in 1991. His residency, both preliminary general surgery and Urology was completed at the UT Southwestern Affiliated Hospitals, where he finished in 1997, immediately beginning a private practice in Denton where he served until just recently. During his residency, Dr. Casey completed research projects in Urodynamics primarily focused on male voiding dysfunction, and served as Chief Resident in 1996-1997. He has been a member of the American Urological Association and the Texas Medical Association throughout his training and private practice career.

### Orvial Bennett, Jr., P.A.-C., Physician Assistant-Certified

Orvial Bennett is certified by the National Commission of Physician Assistants. Orvial completed his Master of Physician Assistant Studies at the University of Nebraska College of Medicine. He has completed a Medical Knowledge Self-Assessment Program in addition to an MD Anderson Cancer Screening and Detection Program. He earned his Bachelor of Science Degree at the University of Nebraska College of Medicine in Omaha. Orvial is a member of the Texas Academy of Physician's Assistants, the American Academy of Physician's Assistants and a member of the American Urological Association.
